

TRACTAGRI HDZ FE 10W-30

TOTAL

“Low SAPS technology” lubricant specially developed for Agricultural machinery engines, with or without Diesel Particulates Filter.

UTILISATIONS

« Agricultural »
segment

All “TIER 1, 2, 3 and
4 interim” Engines

- Particularly dedicated to the lubrication, throughout the year, of engines of tractors, harvesters and other automotive machinery.
- More generally, is recommended for engines working whatever the weather in traction, harvesting, ground forming or all other agricultural machinery type.
- Specially recommended for recent technology engines meeting the last EURO Phase IIIb or US EPA TIER 4 interim pollution Standards.

PERFORMANCES

OEMs approvals

Conform to the
specifications

Suitable in tractors

CASE, NEW-HOLLAND, CLAAS, VALTRA, SAME, FENDT,
MASSEY-FERGUSON, Mc CORMICK...

CUSTOMER ADVANTAGES

Total security
All post-treatment
systems
Fuel economy
All engines compatible

- High thermal stability ensuring a very good lubrication of hot engine pieces, especially during severe and long working periods.
- Its “Low SAPS” formulation is adapted to all exhaust gaz post-treatment systems and particularly improves the durability of the Diesel Particulate Filters
- Specific formulation which enables fuel savings.
Suitable in all engine brands and types of old or recent technology

CHARACTERISTICS

TRACTAGRI HDZ FE	Units	10W-30
Kinematic Viscosity at 40 °C	mm ² /s (cSt)	80
Kinematic Viscosity at 100 °C	mm ² /s (cSt)	11.9
Ash content	%	0.9
TBN	mg KOH/g	9.6
